1. On 23 November I talked to Mr. [] of Legislative Counsel who advised me that Mr. [] had contacted a staff member of Congressman Jack Brooks' office in regard to the subject letter. Mr. [] explained to the staff member that the Agency was exempt from disposal of proprietaries through GSA and that in the case of Southern Air Transport, the supplemental certificate is being returned to the U.S. Government. According to Mr. [] this apparently satisfied the Congressman's representative. Mr. [] suggested that the next step was for OGC to contact GSA representatives to assist in the preparation of the answer to Congressman Brooks on the part of GSA.
